PROFESSIONAL PROFILE HEADLINE

Learning Delivery Manager & Corporate L&D Operations Leader | Virtual Instruction Quality & Multi-Cohort LMS Management | Instructor Vendor Sourcing & SLA Performance Monitoring | Phillips ROI & Evaluation Methodology | Cross-Functional Alignment (CSM & IBO Networks)

EXECUTIVE SUMMARY

Strategic and results-driven Learning Delivery Manager with 8+ years of experience leading end-to-end corporate training delivery, virtual instruction quality, and L&D operations across enterprise ecosystems. Combines an IISER Pune analytical background (BS-MS Dual Degree) with expertise in managing complex multi-cohort schedules, executing instructor vendor sourcing strategies, and establishing rigorous quality evaluations using the Phillips ROI methodology. Proven track record in orchestrating seamless LMS administration, monitoring ramp interval tracking, and driving SLA performance compliance across distributed learning frameworks. Skilled in aligning cross-functional stakeholders—including Customer Success Managers (CSMs) and Independent Business Owners (IBOs)—to translate operational learning metrics and certification rates into strategic business growth.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Learning Delivery & L&D Governance:** End-to-End Learning Delivery Management, Virtual Instruction Quality, Facilitator Coaching & Audits, Multi-Cohort Scheduling, Ramp Interval Tracking, Onboarding Frameworks, SOP Engineering, SLA Performance Monitoring.
- **Instructor Sourcing & Quality Evaluation:** Instructor Vendor Sourcing & Onboarding, Phillips Evaluation Methodology (Levels 1–5), Quality Audits, Standardized Rubrics, Instructor Performance Scorecards, Contract Governance, Facilitator Escalation Workflows.
- **LMS & Learning Technology Platform Admin:** LMS Administration & Architecture, Virtual Classroom Tools (Zoom, MS Teams, Webex), Automated Certification Engines, Workflow Automation, Learning Analytics, Interactive Content Authoring, API Integrations.
- **Cross-Functional Alignment & Partner Strategy:** Customer Success Manager (CSM) Engagement, Independent Business Owner (IBO) Network Collaboration, Learner Trend Analysis, Executive Reporting Cadences, Client Relationship Governance, Enterprise Escalation Management.
- **Analytics, AI & Enterprise Tooling:** Power BI, Tableau, Advanced Excel & Dashboards, Python, R, SQL, Generative AI & Prompt Engineering, Certification Rate Tracking, Data-Driven ROI Modeling, Machine Learning Pipelines.

CHRONOLOGICAL PROFESSIONAL EXPERIENCE

1. Senior Facilitator (Business Analytics Track)

Regenesys Business School | January 2025 – Present

- **End-to-End Learning Delivery & Multi-Cohort Governance:** Direct operational execution, SLA performance monitoring, and delivery governance across corporate programs. Strategize complex multi-cohort schedules, instructor vendor sourcing, and virtual classroom logistics, driving a 25% increase in participant satisfaction and 98% on-time milestone compliance.
- **Virtual Instruction Quality & Phillips Methodology Audits:** Institute virtual delivery benchmarks and conduct systematic quality evaluations using the Phillips ROI methodology (Levels 1–5). Deliver structured coaching to internal facilitators and external vendor partners, reducing performance variance and boosting interactive engagement for 500+ corporate learners.
- **LMS Administration, Ramp Interval Tracking & Automation:** Manage platform administration, feature deployment, and automated reporting workflows in coordination with IT and product teams. Implement tracking mechanisms for ramp intervals, learning curves, and certification rates, cutting administrative handling time by 40% while maintaining 99.8% system reliability.
- **Stakeholder Alignment (CSM & IBO Networks):** Partner closely with Customer Success Managers (CSMs), enterprise clients, and Independent Business Owners (IBOs) to harmonize delivery targets with strategic business outcomes. Synthesize complex learner trends into executive Power BI dashboards to validate learning ROI.

2. Senior Data Science Faculty

Fusion Software Institute, Pune | July 2024 – January 2025

- **Learning Delivery Oversight & Vendor Management:** Orchestrated multi-week corporate bootcamps and tech training programs, supervising third-party instructor sourcing, facilitator onboarding, and cohort scheduling for 300+ working professionals.
- **Quality Audits & SLA Performance Tracking:** Instituted regular virtual classroom audits and instructor scoring rubrics based on Phillips evaluation frameworks. Monitored program SLA metrics, ramp interval milestones, and customer success targets, boosting course completion rates by 22%.
- **Cross-Functional Client Success Alignment:** Collaborated with account teams, CSMs, and business leads to analyze learner engagement trends, optimize delivery workflows, and deliver structured status reports on key performance indicators.

3. Data Science Faculty & Associate Trainer

ITVedant, Pune | October 2022 – June 2024

- **Virtual Learning Environment & Platform Operations:** Governed LMS operations, virtual lab infrastructure, and digital learning platforms for 250+ active learners across parallel tracks, ensuring zero platform downtime and strict SLA adherence.
- **Learner Analytics & Ramp Interval Monitoring:** Tracked participant progression, assignment completion rates, and ramp intervals using Power BI and automated tracking sheets. Spearheaded proactive intervention programs for struggling cohorts, raising overall certification rates to over 95%.
- **Instructor Evaluation & Standards Alignment:** Executed routine instructional quality reviews, standardized grading rubrics, and facilitated continuous feedback sessions with internal trainers to enforce delivery excellence.

4. Data Science Faculty (Academics & Operations)

Ajeenkya DY Patil University, Pune | August 2022 – October 2022

- **Delivery Standards & Quality Engineering:** Directed course delivery for undergraduate and MBA cohorts. Standardized lesson delivery blueprints, learning objectives, and Phillips-inspired evaluation criteria, resulting in a 20% increase in pass rates.
- **Multi-Cohort Operations & Resource Planning:** Managed schedule alignment, faculty resource allocation, and LMS content deployment, maintaining operational compliance with institutional SLAs.

5. Data Science Faculty & Postgraduate Mentor

MKSSS'S AIT, Center for Data Science, Machine Learning and AI, Pune | April 2021 – August 2022

- **L&D Infrastructure Governance & SLA Tracking:** Managed operational setup and technical governance for BI computing platforms (Power BI, Tableau, RStudio). Reduced setup turnaround times by 50% and instituted standard operational maintenance SLAs.
- **Mentorship, Quality Audits & Certification Metrics:** Guided 200+ scholars in data analytics projects, conducted quality evaluations on research outputs, and managed certification verification processes to achieve a 98% program completion rate.

6. Founder & Lead Instructor (Self-Employed)

Independent Foundational Mathematics & Science Coaching Practice | July 2018 – March 2021

- **Practice Operations & Program Oversight:** Founded an independent educational practice mentoring 150+ students in computational subjects. Served as Project Lead for the Atal New India Challenge (AIM, NITI Aayog, Govt of India, 2018), orchestrating resource planning, cross-functional stakeholder coordination, and milestone tracking.
- **Facilitator Sourcing & Curriculum Design:** Sourced and onboarded guest instructors, engineered modular lesson plans, and established student feedback loops to continuously improve delivery quality.

KEY TECHNICAL & APPLIED PROJECTS

- **Enterprise LMS Analytics & Ramp Tracking Engine:** Architected an automated reporting engine integrating LMS data with Power BI and Python. Streamlined real-time tracking of learner ramp intervals, SLA compliance, and certification rates across enterprise programs, raising operational efficiency by 35%.
- **Virtual Instructional Quality & Vendor Onboarding Portal:** Built a virtual instruction QA framework and instructor onboarding portal incorporating Phillips methodology evaluation rubrics and video audit workflows. Reduced instructor vendor onboarding time by 30% while enforcing strict quality standards.
- **Conversational AI Systems & Executive NLP Tools:** Engineered Rasa Chatbot architectures integrated with Flask RESTful APIs. Built automated SQL query engines and Excel Intelligence Chatbots, enabling stakeholders to retrieve analytical insights via natural language with 92% accuracy.
- **Earthquake Magnitude Statistical Thesis (IISER Pune):** Formulated statistical methods to estimate magnitude completeness (Mc) and spatial uncertainties using synthetic data platforms, stochastic simulation algorithms, and custom MATLAB scripts for seismic hazard assessment frameworks.

CERTIFICATIONS & TECHNICAL CREDENTIALS

- **Honors & Credentials:** Phillips ROI Methodology Practitioner | Certified in AI Delivery & Deployment (ITVedant) | 'Employee of the Month' Enterprise Award (ITVedant) | IBM Professional Certifications in Machine Learning & Data Analysis | ML Engineer - AI Analyst Certification (Symbiosis Skills) | Advanced Generative AI & Prompt Engineering Specialist.
- **Publications & Research:** Co-author, "Machine Learning in Supply Chain and Analytics" (Phygital) | BS-MS Master's Thesis on Earthquake Magnitude Completeness (IISER Pune) | Author, IEEE Research Paper "HyPE: Positional Encodings for Length Generalization in Transformers".

EDUCATION & ACADEMIC PEDIGREE

- **Degree & Institution:** Integrated Masters (BSMS Dual Degree) in Mathematics and Earth & Climate Science | First Class | Indian Institute of Science Education and Research (IISER), Pune.
- **Fellowships & Awards:** National INSPIRE Fellowship Recipient (DST, Govt of India, 2019) awarded to top 1% meritorious students nationwide | Pune Municipal Corporation Academic Scholar (2012, 2014) in recognition of scholastic achievement.
